- Skin cancer/skin screening
- Skin tightening (Radiage)
- Toenail removal
- Vasectomy (no-needle no-scalpel)
- Wart therapy

I think most of you have heard by now that I will be retiring May 1, 2018. I have sold the practice to Lorenzo Berlanga, M.D. Dr. Berlanga shares many of the philosophies that I do about patient care.

I will be seeing patients at the Medical Procedures Center, P.C. until May 1st. Dr. Berlanga will be with me and will also be seeing patients. I encourage you to welcome him in his new practice. He was born in Flint, went to Michigan State Medical School, and completed his residency at the University of Michigan. He then taught at Mayo for three years before coming to Midland. His wife, Juanita, is an anesthesiologist.

Dr. Berlanga will be continuing on here and will have all of your medical records if they are needed in the future. He will be doing the same things that I did for the past twenty-eight years.

It's hard for me to believe that the time has gone so quickly. I remember the days when I was just thinking about medical school. Here I am now thinking about retirement. I very much appreciate your confidence in the care that we have provided. I also appreciate the respect and the confidence that you have given me.

I do plan on staying in Michigan and will be available should Dr. Berlanga have questions about anything or anyone. Some of you certainly have some complicated situations and it would be no problem for me to share my insights with Dr. Berlanga about you.

Thank you all so very much.

Sincerely,

John L. Pfenninger, M.D.
